

## HANGING FIBERGLASS NOISE ABSORBER BAFFLES (Poly-Covered Fiberglass)

**Part #** 25-601020  
**Color:** Off-White  
**Weight:** 2 lbs./sq. ft; 32 oz./sq. yd.  
**Thickness:** 1-1/2 inches  
**Baffle Size:** 4' wide x 2' high  
**Roll Size:** 48" Wide, 24" high  
**Construction:** 1-1/2" thick, 1.5 lb./cu. Ft. density fiberglass batting, completely sealed in a 2 mil thick, flame-resistant polyethylene cover. Brass grommets for hanging on each of 4 corners.  
**Flame Resistance:** Polyethelene cover is treated to meet Federal Motor Vehicle Safety Standard #302. The fiberglass batting is non-flammable, non-combustible.  
**Temperature Limits:** -50° to +200° F (continuous)

**Random Incidence  
Sound Absorption:**

Frequency (Hertz)					
125	250	500	1000	2000	4000
2.5	4.7	8.3	10.6	10.3	7.4

(Sabins per baffle)

When hung in the recommended density of one absorber per 8-10 square feet of floor area, typical ambient noise reductions of 4-7 dBA can be achieved.
