

POLY BAFFLE

2" Poly Covered Fiberglass

Part Number: 25-601020

Color: White

Weight: 2 lbs

Thickness: 2 inch nominal

Baffle Size: 4' x 2' – Grommets 4 Corners

Construction: Two layers of 1" thick, 2 lb./cu. ft. density fiberglass batting, completely sealed in a 2 mil thick, flame-resistant polyethylene cover. Brass grommets for hanging on each of 4 corners.

Flame Resistance: Polyethylene cover is treated to meet Federal Motor Vehicle Safety Standard #302. The fiberglass batting is non-flammable, non-combustible.

<u>Flame spread</u>	<u>Fuel Contributed</u>	<u>Smoke Developed</u>
5.0	20.00	5.0

Temperature Limits: Service range of -50° to +200° F (continuous)

Random Incidence Sound Absorption:

Frequency (Hertz)

125	250	500	1000	2000	4000
2.5	4.7	8.3	10.6	10.3	7.4

(Sabins per Baffle)

When hung in the recommended density of one absorber per 8-10 square feet of floor area, typical ambient noise reductions of 4-7 dBA can be achieved.
