

Transparent Anti-Static PVC

Part #	15-000754AS (SC-7AS)
Colors	Clear Transparent with Black Beehive printing
Thickness	12 Mils
Finished Square Yard Weight	8 oz

Roll Size 54"W x 100 Yards Long

Physical Properties

	<u>Test Method</u>
Tensile Strength 265 psi -vertical	JIS K- 6732
100% Modulus 125 psi -vertical	JIS K- 6732
Elongation 291% -vertical	JIS K- 6732
Graves Tear 58 lbs./in. -vertical	JIS K- 6732
Cold Crack -26°F -vertical	ASTM D -1593

Product Characteristics

A "beehive-like" electro-conductive print on its surface gives this an excellent anti-static effect. As transparent as standard flexible PVC film. Application can be extended to accident preventing measures, due to its base film a fire retardant film approved by Fire Agency.

Properties

Anti-Static Effect:

Charged Voltage (22°C, 49% RH)	-0.2KV
Transmission Voltage (22°C, 49% RH)	0.4KV
Distance of static attractive forces	1 cm

Flame Resistance

<u>Test Method</u>	<u>Results</u>
Fire Defense Act 8-3	Approved
MVSS No. 302	Approved
Domestic Auto Maker's Safety	Approved
